

AMENDMENTS TO THE SPECIFICATION

IN THE TITLE OF THE INVENTION:

Please replace the Title with the following amended Title:

SYSTEM AND METHOD EMPLOYING MULTIPLE PROCESSORS FOR
PROCESSING DATA ON A PORTABLE CARD COMPUTER SYSTEM

IN THE ABSTRACT OF THE DISCLOSURE:

Please replace the Abstract with the following amended Abstract:

Disclosed are systems and methods for performing customer checkout transactions by processing customer-selected items with data on customer cards. An exemplary method includes reading a first location from a memory of a customer card via a processor of a checkout station. The exemplary method also includes determining a second location, using a processor common to multiple checkout stations, and writing to the second location of the memory of the customer card via the processor of the checkout station.
